

Download Lego Digital Designer Building Guide

If you have downloaded an LDD .lxf file for a Rebrickable MOC, and you wish to generate instructions, follow this procedure: Start LEGO Digital Designer. Select Open another file. Locate the model and select Open. Press Building guide mode icon (top/right) or press F7. Use the Next brick (right ...With LEGO Digital Designer you can design and create your very own Mindstorms robot.Lego Digital Designer is a nice piece of software used to make virtual Lego models. The software is designed and made by Lego, so there is no problems.There are three modes.These would be further explained in this Instructable, which I'll do.If you're an avid user of the LEGO Digital Designer (LDD), you would know that the program lacks a proper building instruction feature.This is where Eurobricks member msx80 comes in. They have posted a LEGO building instruction generator program called Blueprint which takes your LXF file and generates building steps while using the LDD group definitions.
