This cheat-sheet is for you if you are thinking of investing in solar power. If you read this guide, you'll know more about solar energy than 99.9% of Australians, be able to go toe-to-toe with a solar salesman, and be confident you're paying the right amount of money for a properly-sized solar system installation for your home. Factorio is a game in which you build and maintain factories. This is a compendium of the most common Factorio facts (v0.17). A huge thanks to to all the contributors on github, as well as the community who made the previous cheat sheets and other resources; such as the Wiki, Reddit, and Factorio Discord from which this is all based on. This is only a sliver of the info available, for more in ...All cheat sheets, round-ups, quick reference cards, quick reference guides and quick reference sheets in one page. The only one you need. Solar intertie photovoltaic (PV) systems are not particularly complex. First there are panels, which collect the sunlight and turn it into electricity. The DC signals are fed into an inverter, which converts the DC into grid-compatible AC power (which is what you use in your home). Various switch boxes are included for safety reasons, and [...]
