

# Download Swimming Pool Design Guide

Pool Designs “Everything begins With a Plan.” If you want to plan and draw your own swimming pool construction plan then download our Free guide. A swimming pool, swimming bath, wading pool, or paddling pool is a structure designed to hold water to enable swimming or other leisure activities. Pools can be built into the ground (in-ground pools) or built above ground (as a freestanding construction or as part of a building or other larger structure), and are also a common feature aboard ocean-liners and cruise ships. Australia’s largest swimming pool builder, Blue Haven has lead in affordable and stylish pool design and building since 1973. Our long history of providing creative and elegant designs has resulted in over 70,000 Australians saying “YES”. Premier was called in to design a one of a kind pool for a small backyard in just 48 hours! We delivered on an over-the-top request to put a “spool” or smaller pool in the homeowners backyard and completely revitalize the purpose and space of the yard much to the happiness of the owners.
