Can anyone help me find an owners manual on a Vulcan Drill Press Model 9990? I just bought this machine and cannot find anything of substance on the net. Thanks Or you can contact the retailer where you purchased your NOVA Vulcan DVR Drill Press, for the contact details please see our website www.teknaatool.com IL 60611 in the Accident Prevention Manual of Industrial Operations and also in the Safety Data Sheets provided by the NSC. Also refer to the American National Standards The NOVA Vulcan is designed to handle all of the normal metal working tasks but also has the ability to mill parts, as required. Note: additional accessory compound table is required. This is a major step up from conventional drill presses that can handle heavy drilling but not milling.
